## SUMMARY

Dynamic Flutter Developer with 2.5 years of experience at Alestra Solutions, delivering scalable, user-centric cross-platform mobile and web applications. Proficient in Flutter and Dart, I specialize in MVVM architecture, GetX state management, and Firebase integration, leveraging Flutter plugins to enhance functionality. Adept at client communication, honed through successful Fiverr project management, ensuring seamless collaboration and high client satisfaction. Skilled in GitHub for version control, I am passionate about crafting efficient, maintainable code and innovative solutions tailored to diverse business needs.

## EXPERIENCE

### Flutter Developer

01/2023 - Present

Alestra Solutions Gulberg Greens, Islamabad

- Developed cross-platform apps using Flutter and Dart for iOS, Android, and web.
- Used GetX for scalable state management and improved testability.
- Implemented MVVM architecture and followed Agile development practices.
- Integrated Firebase for authentication, Firestore, and real-time updates.
- Built responsive admin panels for both web and mobile platforms.
- Managed client projects on Fiverr, ensuring clear communication and high satisfaction.
- Leveraged GitHub for version control and clean, collaborative codebases.
- Collaborated with UI/UX teams to deliver modern, responsive interfaces.

#### Projects :

##### Dairy Forms App for Milkman (March 2025)

- Developed a mobile app for milk delivery tracking using Flutter, GetX, Firebase, and local\_notifications.
- Implemented order forms and delivery scheduling, reducing manual errors by 30%.
- Added localization for multiple languages to support diverse users.
- Integrated push notifications for real-time updates to customers and delivery personnel.

##### Audiobooks App and Admin Panel (January 2025)

- Built a cross-platform audiobook app with offline playback using Flutter, Firebase, and audioplayers.
- Integrated Firebase for user progress syncing and content delivery, improving retention.
- Designed accessible UI for diverse audiences, earning positive client feedback.
- Created a custom admin panel for managing audiobooks, categories, and user data, streamlining backend operations.

##### Restaurant App (Web and Mobile) (July 2024)

- Developed a responsive web and mobile app for restaurant management using Flutter, MVVM, and firebase\_messaging.
- Implemented Firebase for real-time order tracking and menu updates, boosting order processing by 25%.
- Built a web-based admin panel for inventory and staff management.

##### Alkaline (Music and E-Store App) (December 2023)

- Developed a cross-platform app for music streaming and e-commerce using Flutter, GetX, and audioplayers.
- Implemented real-time music playback and secure payment integration, increasing engagement by 15%.
- Designed intuitive UI with Material Design for seamless iOS and Android navigation.

##### Filvo (E-Commerce App) (February 2023)

- Developed a cross-platform e-commerce app for food, vegetables, groceries, and ingredients using Flutter, GetX, and

- firebase\_auth.
- Integrated Firebase for real-time inventory, authentication, and secure payments.
- Designed responsive UI with Material Design, enhancing user experience on iOS and Android.
