Experience

- Mobipixels** October, 2022 - September, 2024
Android Developer

Experience in Photo & Video Editing Apps | Kotlin & MVVM Enthusiast

Worked at Mobipixels as an Android Developer, where I contributed to the development of Photo editor apps, Collage maker apps, and Video editing applications. During my time there, I gained hands-on experience in building high-performance mobile applications with a strong focus on UI/UX, performance optimization, and feature-rich functionalities.

Key Expertise:

- ✓ Android Data Binding & View Binding – Ensuring efficient and maintainable UI development
- ✓ Firebase – Implementing real-time data sync, authentication, and cloud storage
- ✓ FFmpeg – Integrating multimedia processing for video and audio editing features
- ✓ Custom Views – Creating intuitive and visually appealing UI components
- ✓ Git – Managing version control for smooth collaboration and code management

At Mobipixels, I honed my skills in Kotlin and Java, MVVM architecture, Room database, enabling me to develop scalable and user-friendly Android applications.

I am always eager to learn and explore new technologies to push the boundaries of Android development. Let's connect! 🚀

- BiTech/Join Apps Studio** October, 2024 - Present
Android Developer

Experience in Design, Editor, Audio, and GPS-Based Applications | Kotlin & MVVM Enthusiast

Currently working at BiTech/Join Apps Studio as an Android Developer, where I contribute to the development of Logo Maker app, Stylish Card Maker app, MP3 Cutter & Ringtone Maker app, and GPS applications integrating Mapbox. My experience includes building high-performance mobile applications with a strong emphasis on UI/UX, performance optimization, and feature-rich functionalities.

Key Expertise:

- ✓ Android Data Binding & View Binding – Ensuring efficient and maintainable UI development
- ✓ Firebase – Implementing real-time data sync and Remote Config.
- ✓ FFmpeg – Integrating multimedia processing for audio and video editing features
- ✓ Mapbox – Developing GPS-based applications with precise location services
- ✓ Custom Views – Crafting intuitive and visually appealing UI components
- ✓ Git – Managing version control for seamless collaboration and code management

At BiTech/Join Apps Studio, I continue to enhance my skills in Kotlin and Java, MVVM architecture, and Room database, enabling me to develop scalable and user-friendly Android applications.

"Passionate about exploring new technologies and continuously improving my Android development skills to create innovative and high-performance applications. Let's connect! 🚀"

Education

- International Islamic University, Islamabad** 2022
BS Software Engineering
3.59

Skills

- View Binding
- Data Binding
- FFmpeg
- Git
- Firebase
- Custom Views
- Google Ads

Projects

- **Texopic**
Photo Editing Application
<https://play.google.com/store/apps/details?id=com.wonderApps.TextOnPicture&hl=en>
- **Collage Maker**
Photo and Video Editing and Collage Maker
<https://play.google.com/store/apps/details?id=com.rosy.collagemaker&hl=en>
- **Video Editing**
Videos Editing using Ffmpeg
- **Mp3 Cutter and Ringtone Maker**
Mp3 audio files Editing and Making Ringtones
<https://play.google.com/store/apps/details?id=com.mp3.cutter.audio.ringtone.maker>
- **Logo Maker**
Logo Maker application
<https://play.google.com/store/apps/details?id=com.cat.logomaker>
- **Language Translator**
Language Translator in many languages.
<https://play.google.com/store/apps/details?id=com.language.translator.dictionary.all.voice.translate.live>
- **Gps Navigation Applications**
Gps Navigation using Mapbox
Route Finder
<https://play.google.com/store/apps/details?id=com.gpsaround.places.rideme.navigation.mapstracking>
- **Stylish Card Maker**
Cards making which includes flayers, invitation and business Cards.
