

Minahil Abbas

Islamabad, Pakistan | +92-346-5462006 | Abbasminahil1@gmail.com

Summary

Full-Stack MERN Developer with expertise in building responsive, scalable, and user-centric web applications using React.js, Node.js, Express.js, and MongoDB. Skilled in REST API development, state management (Redux), and performance optimization. Proficient in Python (Flask, Django), networking, and IoT solutions. Adept at working in Agile environments, integrating third-party APIs, and implementing database management best practices.

CAREER EXPERIENCE

Ivy Interactive Solutions, Islamabad

Oct 2024 – Jun 2025

MERN Full Stack Web Developer

- Built responsive, interactive user interfaces using **React.js**, ensuring optimal performance and cross-browser compatibility.
- Developed backend services with **Node.js** and **Express.js** to handle API requests, authentication, and business logic.
- Created and consumed **RESTful APIs** to enable seamless communication between frontend and backend.
- Implemented reusable components and state management strategies to enhance scalability and maintainability.
- Integrated Redux for state management, enabling predictable data flow and efficient handling of complex application states.
- Designed and integrated **MongoDB** databases for efficient data storage, retrieval, and management.

National Information Technology Board (NITB), Islamabad

Jul 2024 – Sep 2024

Python Developer

- Developed backend modules for a government portal using **Python (Django)** and **MySQL**.
- Developed backend web applications using **Flask**, implementing routing, template rendering, and database integration.
- Built desktop GUI applications with Tkinter, creating interactive interfaces for user-friendly data input and visualization.

CERTIFICATIONS & ACTIVITIES

Women Leadership & Networking

- Completed an orientation training focused on leadership skills and professional networking for women.
- Gained insights into effective communication, collaboration, and career growth strategies.

Data Science Workshop

- I participated in a one-day workshop covering data analysis, visualization, and basic machine learning concepts.
- Applied hands-on exercises to understand data processing workflows.

Event Organization – Parents Day

- Coordinated event logistics, scheduling, and team assignments for a successful university Parents Day.
- Managed communication between faculty, students, and attendees to ensure smooth execution.

Technical Support Fundamentals

- Completed certification in core IT support concepts including troubleshooting, networking, and system administration.
- Gained foundational skills in diagnosing and resolving technical issues.

Data Science, Machine Learning & Blockchain – NAVTTC

- Achieved certification covering data analysis, predictive modeling, and blockchain fundamentals.
- Gained practical experience with tools and techniques for data-driven decision-making and decentralized applications.

EDUCATIONAL BACKGROUND

BS Information Engineering Technology, National Skills University Islamabad | 2021 - 2025

TECHNICAL PROFICIENCIES

React.js | Redux | Node.js | Express.js | Flask | Django | Tkinter | Python | MongoDB | MySQL | Networking | Github |
Javascript ES6+

PROJECTS

Smart Blind Stick – Nationally Recognized by Ignite

Final Year Project

- Designed and developed an IoT-based assistive device using sensors and microcontrollers to aid visually impaired individuals.
- Achieved national recognition and funding from Ignite for innovation and social impact.
