SUMMARY

Mid-level Frontend Developer with hands-on experience building responsive and scalable web applications using React.js and modern JavaScript. Skilled in state management with Redux Toolkit and RTK Query, API integration, and performance optimization. Strong at converting Figma designs into clean, user-friendly interfaces and collaborating with cross-functional teams to deliver production-ready features.

EXPERIENCE

Frontend Developer 04/2025 - 12/2025
Hypertext Solutions Private Ltd. ↗

- Developed responsive, mobile-first user interfaces using React.js and Tailwind CSS, converting figma designs into functional user interfaces.
- Used React Hooks to manage component state, side effects, and dynamic UI behaviour.
- Structured applications using modular and reusable components, improving maintainability and scalability.
- Optimized rendering logic to reduce unnecessary re-renders and improve page load performance.
- Implemented form handling, validation, and basic error handling to improve user experience and data accuracy.

Frontend Developer 09/2023 - 03/2025
Smart Coders (SMC) Private Ltd. ↗

- Built and maintained React applications using Redux Toolkit and RTK Query to manage application state and API data efficiently.
- Developed reusable and scalable UI components using Tailwind CSS, ShadCN UI, and Styled Components, improving consistency across the application.
- Applied performance optimization techniques such as lazy loading, code splitting, and memoization to enhance application responsiveness.
- Integrated backend services using Axios and Fetch API, ensuring reliable data handling and error management.
- Collaborated with backend developers and designers to implement features aligned with business and UI requirements.

EDUCATION

Computer Science ↗ 09/2017 - 09/2021
PMAS Arid Agriculture University, Rawalpindi - Bachelor's Degree

CERTIFICATES

Wordpress 02/2021 - 05/2021
DigiSkills Training Program

Web & Graphic Designing 07/2018 - 09/2018
National Training Bureau, Islamabad

SKILLS

React.js/ Next.js

JavaScript (ES6+)

WordPress

HTML5/ CSS3
