SUMMARY

Frontend Developer with 2+ years of experience shipping production-grade web applications used by thousands of users. Proven ability to own and deliver high-impact features that improve conversion, performance, and user experience. Specialized in React, Next.js, and frontend architecture, creating fast, maintainable, and business-driven products. Strong collaborator focused on turning complex requirements into reliable, user-centric solutions.

TECHNICAL SKILLS

- **Frontend Development:** React.js, Next.js, TypeScript, JavaScript (ES6+), Tailwind, jQuery, Ant Design
- **State Management and Data Fetching:** Redux Toolkit, MobX, TanStack Query (React Query)
- **Backend & APIs Integration:** RESTful APIs, Axios, API Integration, Error Handling, MySQL (basic querying)
- **Performance & Optimization:** Lazy Loading, Code Splitting, API Optimization, Rendering Optimization
- **Architecture & Rendering:** SSR, SSG, ISR, Dynamic Routing, Nested Layouts (Next.js)
- **Tools & Workflow:** Git, CI/CD, Agile/Scrum, Postman, Supabase
- **Quality & Standards:** Cross-Browser Compatibility, Responsive Design, Accessibility (W3C, WCAG)

WORK EXPERIENCES

Associate Frontend Developer Enigmatix (Pvt) Ltd Bahawalpur

July 2024 - Feb 2026

- Drove frontend delivery for an AI-powered SEO SaaS platform serving 5,000+ agencies and 430K+ installations, shipping scalable, production-grade features used at scale.
- Owned and delivered end-to-end Pricing & Subscription system (UI → API → RBAC), implementing multi-tier plans and feature gating that increased user conversion and streamlined onboarding.
- Engineered a reusable component architecture using React, TypeScript, MobX, and Tailwind, eliminating duplication and accelerating feature development across the product.
- Designed and scaled frontend architecture with Next.js App Router (dynamic routing, nested layouts, SSR), strengthening maintainability and long-term scalability.
- Optimized application performance by 25% through code splitting, lazy loading, and render control, significantly improving load time and user experience.
- Delivered high-impact, conversion-focused workflows (e.g., press release generation) and partnered with backend, QA, and product teams to ship reliable features aligned with user and business goals.

Technologies: TypeScript, React, Mobx, REST APIs, Next, Tailwind, Antd,, Git

Intern Frontend Developer Enigmatix (Pvt) Ltd Bahawalpur

Jan2024 - july 2024

- Delivered polished, responsive UI and resolved critical bugs, improving usability, fixing cross-browser inconsistencies, and ensuring smooth API-driven interactions across key user flows.
- Built reusable shared components (tables, forms, input modules) used across HR and Employee systems, standardizing UI patterns and accelerating feature development across multiple modules.

Technologies: JavaScript (ES6+), React, Redux, REST APIs, Tailwind, CSS

PROJECTS

Full-Stack Web Application: (<https://toursfrontend-seven.vercel.app/>)

- Engineered a full-stack travel booking platform (React, Express, Supabase), delivering an end-to-end system for managing tours, packages, and bookings.
- Architected and exposed RESTful APIs and orchestrated frontend-backend communication, ensuring reliable data flow, efficient state handling, and seamless user experience.
- Enforced JWT-based authentication with RBAC, securing routes and enabling controlled, role-based access across the application.

Bite-Mate (Food Sharing Platform (MERN)): (<https://github.com/Sohail-abbass/bite-mate>)

- Food sharing platform delivering core features including item uploads, likes, comments, and cart functionality.
- Built responsive React UI and integrated RESTful APIs (Node.js/Express), ensuring efficient data flow and smooth, real-time user interactions.
- Implemented JWT-based authentication and managed global state, enabling secure access and consistent user experience across the application.

EDUCATION

Feb 2022 - Feb 2026

Bachelors of Science in Computer Science

Islamia University of Bahawalpur || CGPA : 3.4

Note: Pursuing degree alongside full-time professional role at Enigmatix (Pvt) Ltd.
