Software Engineer

Passionate Software Engineer with academic and practical experience in AI, backend development, and web technologies. Proven ability to build scalable applications, contribute to real-world projects, and excel in team-based environments. Eager to learn and apply best practices in software engineering.

Experience

Data Science Intern | Oasis Info Byte

Projects include Email Spam Detection, Sales Price Prediction, and Unemployment.

Backend Intern | MFSYS Microfinance Systems

Developed a Journal Application using Spring Boot & Rest API and MongoDB.

Software Engineer Intern | LitGrey Technologies

Built a Quiz App using Java and Object-Oriented Programming concepts.

Projects

- **AlgoInsight (Final Year Project):** Flask-based tool enhancing the interpretability of self-supervised deep learning models
- **Plane Detection using YOLO v8 on Satellite Images** - Trained DL model for Detection.
- **Multi-Algorithm Encryption System** – Web Application to perform encryption and
- **Smart Green House (IOT)** – Developed a Smart House with Arduino and 3 sensors

Technical SKILLS

- **Programming Languages:** Python, C++
- **Libraries & Frameworks:** NumPy, Pandas, Scikit-Learn, Matplotlib, Seaborn, Spring Boot
- **Machine Learning:** Explainable AI, YOLO v8, Data Analysis, Pytorch, TensorFlow, NLP
- **Web Development:** HTML, CSS, Java
- **Tools & Platforms:** Postman, MongoDB, SQL

EDUCATION

CUST University- Islamabad City, Pakistan

Bachelor of Software Engineering (3.93), 2025

VOLUNTEER EXPERIENCE

President, Cause & AICP Society (Organized 25+ Events & Ambassador of 6+ Companies)

Competitive Programming

Contest participant: Onsite at GIK (2024), 31st position in Pakistan (2023), 92nd position (2022), NUST Speed Programming (2024), and SZABIST Innovation Challenge (2024)
