Awan street rangers road sialkot, Sialkot, Punjab, 51400, Pakistan

React.js Front-End Developer with 3+ years of combined professional and freelancing experience in building scalable, high-performance web applications. Proficient in React.js, React-Native, Next.js, JavaScript, Redux, Context API, Tailwind CSS, and Bootstrap with expertise in responsive UI/UX, state management, and REST API integration. Skilled in performance optimization, debugging, testing, and Git-based workflows. Experienced in collaborating with cross-functional teams to deliver modern, maintainable, and user-friendly applications.

Work Experience

Senior Frontend Developer

Jul 2023 - Sep 2025

Fabulous Technology Solutions | sialkot

- Develop and maintain responsive, high-performance web and mobile applications using React, React-Native, Next.js, Node.js, and Express.js.
- Implement UI/UX designs, ensuring smooth user interactions and accessibility across devices.
- Integrate third-party services, handling authentication, data fetching, and real-time updates.
- Collaborate with designers and backend developers to create seamless user experiences.
- Manage routing and navigation in web (React Router) and mobile (React Navigation) apps.
- Deploy applications on cloud platforms, ensuring scalability and security

React JS Developer

Jun 2022 - Jun 2023

Freelancing | remote

Delivered 15+ projects for international clients using React.js, Redux, Tailwind CSS, and Bootstrap
Built responsive UIs and integrated RESTful APIs

- Optimized performance, improving Lighthouse scores.
- Used Git/GitHub for version control.
- Developed pixel-perfect, responsive UI for web applications.
- Implemented custom CSS solutions improving design consistency.

Web Development Intern

Feb 2022 - May 2022

Eracon Technologies (Pvt) Ltd | Rawalpindi

Joined as an internee and transitioned into frontend development role.

Developed pixel-perfect, responsive UI for web applications.

Implemented custom CSS solutions improving design consistency.

Projects

Our Destination Weddings

Jan 2025 - Aug 2025

Develop a destination wedding platform with an admin dashboard to manage bookings, guest lists, vendors, and payments. Implemented automated cost calculations, secure transactions, and reporting. Developed workflows for travel coordination, package management, and user roles to streamline wedding/event planning operations.

Boogeat

Mar 2025 - Jun 2025

Dynamic food-ordering platform with an admin dashboard to manage menus, orders, payments, and delivery logistics. Implemented real-time order tracking, automated financial summaries, role-based access, and integration with third-party payment gateways, ensuring smooth UX for customers and efficient operations for staff

Cab despatch

Sep 2024 - Dec 2024

Cab Despatch is a comprehensive software solution for the taxi and private hire industry, designed to optimize booking, dispatch, and fleet management processes. The platform streamlines operations with features such as real-time tracking, automated dispatch, and a user-friendly booking interface, enhancing the efficiency of cab companies, and improving the customer experience. It supports various transport services, from individual taxis to corporate accounts, and integrates tools for driver management, customer invoicing, and detailed reporting, making it a powerful tool for managing and scaling transportation businesses.

Digital Task Planner

Apr 2025 - Present

A streamlined digital task planner that centralizes event planning, scheduling, and task management, helping users organize deadlines, to-dos, and workflows in one intuitive interface. It simplifies the coordination and execution of events with clear, centralized control

Core Skills

React.js, React-Native, Next.js, Javascript, Redux, Context Api, HTML, CSS, Typescript, Tailwind, Bootstrap, MUI

Education

University of Engineering and Technology (UET) Taxila

Aug 2019 - Jun 2030

Bachelor's | Computer Science

Languages

English (*Profassional*), Urdu (*Native*), Punjabi (*Native*)
