Experience

Switch communication | Product Designer

September .2023 - Present

- Designed and enhanced user experiences for B2C and B2B digital products (websites,, mobile apps & dashboard).
- Provided UI/UX services to 5 sister companies under Switch.
- Built responsive websites and mobile applications with dark & light mode, ensuring accessibility and modern aesthetics.
- Created wireframes, prototypes, and high-fidelity designs to craft intuitive, user-friendly interfaces.
- Collaborated with Product Managers to gather and translate requirements into effective user flows.

Genesis Lab | UIUX designer(Blockchain Focus)

February .2023 -September 2023

- Designed user-centric web and mobile interfaces for blockchain products.
- Collaborated with Product Managers to gather and evaluate requirements.
- Created wireframes, storyboards, process flows, and sitemaps to illustrate design concepts.
- Delivered creative design solutions to address client challenges.

Codistan | UIUX designer(Team Lead)

December .2021 -February2023

- Led UI/UX design for web and mobile applications.
- Partnered with Product Managers to define and validate user requirements.
- Produced wireframes, flows, and sitemaps to communicate design concepts.
- Conducted usability testing to refine user experience.
- Delivered creative, client-focused design solutions.

Aksa-sds | Web and graphic designer

September .2021 -November 2021

1. Designed website templates for JazzCash and other clients.
2. Converted PSD designs into responsive HTML (login pages, templates).
3. Created newsletters for email marketing campaigns.
4. Resolved front-end issues and optimized layouts using Bootstrap.
5. Designed social media graphics and posts for LinkedIn & Instagram using Photoshop and Illustrator.
