Summary: I am Ammarah Khaleeq, a front-end developer with experience in multiple programming languages, frameworks, and databases. I also have experience with backend and MERN Stack development. I have experience designing, developing, and maintaining both front-end and back-end systems for web applications, creating dynamic and responsive user interfaces while ensuring efficient and secure data storage and management. I am passionate about learning and staying up-to-date with the latest technologies, making me a valuable asset to any organization seeking a talented full stack developer.

Technical Skills

- **Programming & OOP:** JavaScript (ES6+), TypeScript, Node.js, Python, C++ (academic), OOP principles
- **Frameworks & Libraries:** React.js, Next.js, Express.js, Django, Redux, Tailwind CSS
- **Databases:** SQL (queries, relational concepts), MongoDB
- **APIs & Backend:** REST APIs (design & integration), Authentication, Session Management
- **Tools & Version Control:** Git, Docker (basic), Netlify, Vercel, Azure, Firebase
- **CMS:** WordPress (custom themes, plugins, Elementor)
- **Other Competencies:** Data Structures & Algorithms, Responsive Design, Cross-Browser Compatibility, SEO Basics, AI integration (academic)

WORK EXPERIENCE

MAY 2024 – SEPT 2024

FRONTEND DEVELOPER, ZIMO GROUP UK

Technologies NEXT JS, Typescript. Frontend development and API integration, Redux, Deployments on Netlify and Vercel. Research and Development.

OCT 2022 – MAR 2024

JUNIOR FRONTEND DEVELOPER, LUXIST TECHNOLOGIES

Technologies React JS. Frontend development and API integration, Deployments on Netlify and Azure.

AUG 2022 – OCT 2022

INTERNSHIP, AI ENABLING LAB BAHRIA UNIVERSITY

Creating an App by adding UI to AI Models and AI related Research. Django, SQL and React JS. API in Django and react JS as frontend.

2019 – PRESENT

FREELANCING (WORDPRESS WEBSITES)

Wordpress website development and designing for clients.

DEC 2021 – MAR 2022

PROJECT BASED JOB, ZAHRUN LLC (REMOTE)

Wordpress website development and designing.

DEC 2019 – DEC 2020

INTERNSHIP, CYBER RECONNAISSANCE AND COMBAT (CRC) LAB BAHRIA UNIVERSITY

Learned React JS front end development, Malware analysis and information security.

Final Year Projects

Cyber warfare simulator (offensive and defensive threat evaluation and modeling)

Technologies Used: React JS Node JS Docker Mongo DB

Semester Projects

- Airline Reservation System
- Library Management System
- Digital Restaurant Menu Card

- Text to speech and speech to text (C#)
- Website template on traveling agency (.NET/PHP)
- E-voting Management System

WordPress and PHP Projects

- Several Ecommerce Related Projects (WordPress)
- Created Site for Education Based Startup (WordPress)
- Site maintenance and management at Insight Securities PK (WordPress)
- Site maintenance and management at AKDSL PK (WordPress)

EDUCATION

Bachelors in information Technology

-Major Subjects

Computer Programming
Object Oriented programming
Data structure and Algorithm
Visual Programming
Artificial Intelligence
Mobile Application Development

-Minors

Technology Management
Principal of Management
Linear Algebra
Principle of accounting

FSC Higher Secondary Education

-Majors

Chemistry, Physics, Mathematics

Matriculation

-Majors

Chemistry, Physics, Mathematics, Computer Science
