SKILLS

- ❖ **Frontend:** HTML, CSS, JavaScript, React.js, Next.js
- ❖ **Backend:** Node.js, Express.js, Solidity, Ethers.js, Smart Contracts, C++
- ❖ **Database:** MySQL, MongoDB

EDUCATION

- ❖ BS Computer Science | Sir Syed CASE Institute of Technology Islamabad (Feb'21-'25)
- ❖ XII (F.Sc Pre-Engineering) | Sir Syed College Campus 2 Wah Cantt (Sep'18-'21)

EXPERIENCE

- ❖ **Full Stack Developer | IT Extremes**
(Aug'2025 - Nov'2025)

Developed full-stack features for a real estate platform and delivered three client-based MERN applications: a bike subscription system (BoraBici), an LMS with video watermarking (MZK Digital), and an e-commerce platform with an MLM system (Femilea). Also built Rentsinn, IT Extremes' company-owned real estate website ([Rentsinn](#)), using Next.js and Node.js. Worked on core modules including Stripe recurring payments, manual payment workflows, authentication, dashboards, and subscription management.

PROJECTS

- ❖ **BoraBici | Complete Bike Subscription Platform**

BoraBici is a MERN/Next.js-based monthly bike rental and subscription platform with secure Stripe recurring payments, user authentication, and automated WhatsApp reminders. It enables users to manage plans and bookings, while the admin dashboard handles bikes, users, subscriptions, and renewals.

Live Demo: [BoraBici](#)

- ❖ **MZK Digital | LMS With Video Watermarking & Manual Payments**

MZK Digital is a secure MERN-based learning management system with dynamic email watermarking on all videos to prevent piracy. It supports manual Easypaisa/JazzCash payment verification, and includes an admin dashboard for managing students, transactions, videos, and course access.

Live Demo: [MZK Digital](#)

- ❖ **Qreal | Blockchain Real Estate Platform**

Qreal is a full-stack React.js application for property registration and transactions, powered by Solidity smart contracts on the Polygon Amoy Testnet. It features a secure, transparent blockchain backend with data stored on IPFS. Thirdweb was used to simplify contract development. Please note that the backend smart contracts are not currently deployed on the live frontend.

- ❖ **Femilea | E-Commerce Platform With Integrated MLM System**

Femilea is a Next.js/MERN e-commerce platform enhanced with a full MLM system including referral tracking, level-wise commissions, and payout logic. It also supports KYC verification, support ticketing, manual Easypaisa/JazzCash payments, and dashboards for users, orders, products, and commissions.
