Rawalpindi, Pakistan

SUMMARY

Computer Science student with strong programming skills in C++, Java, Python, and C#. Experienced in developing management systems and Arduino-based projects. Passionate about problem-solving and eager to gain real-world development experience.

PROJECTS

Cash & Carry Management System (Python)

- Developed a system to manage inventory and sales operations
- Implemented basic functionalities for handling records and transactions
- Technologies: Python, PyCharm

Fingerprint-Based Attendance System (Arduino)

- Built an automated attendance system using fingerprint recognition
- Integrated R305 sensor, RTC module, EEPROM, and LCD
- Records attendance with date and time
- Technologies: Arduino

Grocery Management System (Java – OOP)

- Developed an object-oriented application for managing store operations
- Applied OOP concepts like classes, objects, and encapsulation
- Technologies: Java, Eclipse

EDUCATION

BC COMPUTER SCIENCE

2024-Present

Barani Institute of Information Technology(BIIT), Rawalpindi

Intermediate (ICS) – FBISE

2022-2024

Joint Staff Public School & College, Chaklala, Rawalpindi

Grade: A

Matric (Biology) – FBISE

Joint Staff Public School & College, Chaklala, Rawalpindi

2020-2022

Grade: A1

SKILLS

- **Technical Skills:** C++, Java, C#, Python, Assembly Language(basics), SQL/DBMS, Arduino
- **Soft Skills:** Problem Solving, Teamwork, Time Management, Communications Skills

CERTIFICATIONS

- DevOps WorkShop (Software Engineering Society-BIIT)
